Leading-edge knowledge

It all adds up to confidence.

“The greatest success is confidence.”

Surrounding yourself with exceptional people is a key to achieving long-term business success. Nowhere is that more important than in the accounting firm you choose as your business partner.

Every day, you make decisions that will impact the future of your organization. You need financial information you can rely on, not only to be accurate, but also to be thorough and relevant. DMLO has the expertise, analytical skills and perspective to supply you with the information and ideas you need to make the best decisions.

It all adds up to confidence.

“If everybody thinks alike, then somebody isn’t thinking.”

DEMING, MALONE, LIVESAY & OSTROFF was formed in 1975 because our founders believed there was a better way of doing business than they had seen at typical accounting firms. By taking a new, more client-oriented approach, they distinguished their firm from the others and raised the level of service, expertise and integrity to a degree that continues to set the standard today.

Exceptional service – DMLO takes great pride in contributing to our clients’ success. We take the time to learn your business inside and out. Each DMLO client has a Director whose primary task is to become thoroughly familiar with the particular needs of that client. The personal involvement of a Director with every client is a hallmark of DMLO service. And, while focusing on the big picture, we never lose sight of the importance of our clients’ day-to-day concerns.

Valuable information – Once we have gathered in-depth information about your business, we assemble it according to industry-specific accounting and tax practices. The end-result is a product that not only satisfies government and regulatory requirements for tax and audit purposes, but also provides you with a fresh perspective on your financial position. This gives you the edge that can help you keep on top of the constantly shifting business environment and in control of your finances.

A broader range of expertise – We take a team approach to providing professional accounting services to give you the benefit of input from experts in a variety of essential areas. That translates into your receiving a more in-depth analysis of problems and opportunities. It often leads to more innovative solutions and ideas for enhanced efficiency and profitability.

Expert analysis – Careful analysis of information helps identify opportunities to improve your financial results. This may mean increased productivity, a higher level of competitiveness, or greater profit potential. As a result, management gets the most out of the resources invested in the business. For the business owners, this translates into increased profitability. The bottom line is we help our clients make and keep more money.

Outstanding quality & integrity – DMLO has a stringent quality control program. We are voluntary members of the Private Companies Practice Section (PCPS) of the American Institute of Certified Public Accountants. The PCPS establishes and monitors quality control standards surrounding a firm’s practice. We are also members of the Employee Benefit Plan Audit Quality Center and the Business Valuation and Forensic & Litigation Services sections. In addition, we are active in the Kentucky Society of Certified Public Accountants. These memberships demonstrate our commitment to maintaining the highest level of integrity and quality in our work.

Leading-edge knowledge – Constantly changing tax laws and an increasingly regulated business environment demand that professionals take steps to remain well prepared to meet those challenges. The CPAs at DMLO regularly exceed all required continuing education standards, assuring that clients get the benefit of superior technical competence and the latest industry information.

When you make DMLO part of your team, you can be certain that you have put your business in the hands of a firm that is on the leading edge of industry knowledge, quality assurance and technology. Our professionals have an in-depth understanding of the complexities of a wide variety of industries. We are well prepared to provide professional and innovative solutions to meet your accounting needs.

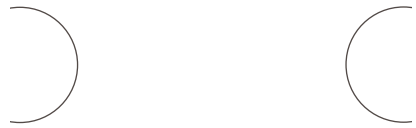

Call DMLO today. Find out how we can provide you with the expertise and perspective that will help you weigh the financial implications of your decisions wisely, give you an edge in today’s market, and help you safeguard your bottom line.

It all adds up to confidence.

“Do everything both cautiously and confidently at the same time.”
